## President's Message

Four years ago a new high school called Soquel High was built. In its first year Soquel High experienced all the problems that a new school usually faces. Clubs and organizations had to be formed; traditions had to be established.

During the three years that followed, many students have worked constantly for the welfare of our school. The name of Soquel High now means something. It is a school that has tradition, a good reputation, and, most of all, pride.

Therefore, it is most fitting that this yearbook be dedicated to the students who have worked constantly for these past four years, the first four-year graduating class of Soquel, the Class of 1966.
